

ULTRA AGGRESSIVE PLUS

NEW, Improved Design & Functionality

Sustained Precision

- Multi-purpose soft tissue resection blade
- Sharp blades improve cutting effectiveness & precision
- Engages & draws tissue with adequate speed for optimal resection
- Acute cutting angle allows aggressive & controlled tissue removal

During shoulder and knee arthroscopy, the ULTRA AGGRESSIVE PLUS enables aggressive soft tissue resection for the removal of bursa, fatpad, meniscal tissue, tendon, cartilage, ACL/PCL stump, synovium, fascia, and plica.

SHOULDER / KNEE / SMALL JOINT / HIP

ORDERING INFORMATION

STERILE SINGLE USE SHAVERS & TORNADO™

ALL SHAVERS ARE PACKAGED 5/BOX

ULTRA AGGRESSIVE PLUS

Multi-purpose, aggressive, soft tissue resection blade

Code	Description
287427	Crosscut Shaver 4.0mm
287428	Crosscut Shaver 5.0mm

ROUND TORNADO BURR

Ultra-aggressive bone, cartilage, osteochondral debridement and osteophyte resection.

Code	Description
287775	Round Tornado burr 4.0mm
287875	Round Tornado burr 5.5mm

FULL RADIUS

Excellent for general debridement.

Code	Description
287305	Full radius cutter 3.5mm
287405	Full radius cutter 4.0mm
287505	Full radius cutter 5.0mm

BARREL TORNADO BURR

Ultra-aggressive burr for bone resection during acromioplasty and notchplasty.

Code	Description
287785	Barrel Tornado burr ultra aggressive 4.0mm
287885	Barrel Tornado burr ultra aggressive 5.5mm
287885	Barrel Tornado burr ultra aggressive 5.5mm

AGGRESSIVE

Aggressive meniscal trimming, plica and synovia removal.

Code	Description
287415	Aggressive cutter 4.0mm
287515	Aggressive cutter 5.0mm

MINI FULL RADIUS CUTTER

Code	Description
287255	Mini full radius cutter 2.9mm
287345	Mini full radius cutter 3.5mm

ULTRA-AGGRESSIVE

Ultra-aggressive all purpose blade. Ideal on ACL stump removal.

Code	Description
287325	Ultra aggressive cutter 3.5mm
287425	Ultra aggressive cutter 4.0mm
287525	Ultra aggressive cutter 5.0mm

MINI ULTRA-AGGRESSIVE CUTTER

Code	Description
287275	Mini ultra aggressive cutter 2.9mm
287375	Mini ultra aggressive cutter 3.5mm

MENISCUS CUTTER

Good for meniscal trimming and joint debridement.

Code	Description
287435	Meniscus cutter 4.0mm
287535	Meniscus cutter 5.0mm

MINI WHISKER CUTTER

Non aggressive for debridement of fine synovium, fatty tissue or articulating surface.

Code	Description
287295	Mini whisk cutter 2.9mm

ROUND BURR

Bone cartilage and osteochondral debridement and osteophyte resection.

Code	Description
287755	Round burr 4.0mm
287855	Round burr 5.5mm

MINI ROUND BURR

For resecting bone and cartilage during acromioplasty and notchplasty.

Code	Description
287735	Mini round burr 2.0mm
287745	Mini round burr 3.5mm

BARREL BURR

For resecting bone and cartilage during acromioplasty and notchplasty.

Code	Description
287765	Barrel burr 4.0mm
287865	Barrel burr 5.5mm

TORNADO

Ergonomic design provides a firm grip and reduced strain. 8000 RPM for aggressive bone removal.

Code	Description
288022	Tornado
